

The **Speaking module** in the IELTS exam is designed to assess your spoken English proficiency in a one-on-one interview format. It evaluates your ability to communicate effectively, express ideas clearly, and use appropriate vocabulary and grammar in a conversational setting. This module is the same for both the **Academic** and **General Training** versions of the test.

Structure of the IELTS Speaking Test

The test lasts **11–14 minutes** and is divided into **three parts**:

Part 1: Introduction and Interview (4–5 minutes)

- The examiner introduces themselves and asks general questions about familiar topics such as your home, family, work, studies, hobbies, or interests.
- This part is meant to make you feel comfortable while assessing your ability to provide basic information and talk about everyday topics.

Part 2: Long Turn (3–4 minutes)

- You will be given a **task card** with a topic and points to cover. You'll have **1 minute to prepare** your response and up to **2 minutes to speak**.

- The topics typically involve describing an experience, event, person, place, or object.
- After your response, the examiner may ask one or two follow-up questions.

Part 3: Discussion (4–5 minutes)

- This part involves a more in-depth discussion related to the topic in Part 2. The examiner will ask abstract or analytical questions, encouraging you to express opinions, discuss ideas, and justify your views.
